AND JEFFRIES'S PUNCH THAT BEAT JIM.

It's the old solar plexus rap, the effects of which Jim Corbett first felt in his fight with Bob Fitzsimmons at Carson City. Jeffries used it later on the ex-champion. It's a straight left to the pit of the stomach, which seldom renders the recipient unconscious, but makes it impossible for him to regain his feet..

## CRUSHES OUT

The most loathsome and repulsive of all living things is the serpent, and the vilest and most degrading of all human diseases is Contagious Blood Poison. The serpent sinks its fangs into the flesh and almost instantly the poison passes through the entire body. Contagious Blood Poison, beginning with a little ulcer, soon contaminates every drop of blood and spreads throughout the whole system. Painful swellings appear in the groins, a red rash and copper colored splotches break out on the body, the mouth and throat become ulcerated, and the hair and eye hrows fall out; but these symptoms are mild compared to the wretchedness and suffering that come in the latter stages of the disease when it attacks the bones and more vital parts of the body. It is then that Contagious Blood Poison is seen in all its hideousness. The deep eating abscesses and sickening ulcers and tumors show the whole system is corrupted and poisoned, and unless relief comes soon this serpent disease tightens its colds and crushes out the life. The only antidote for the awful virus is S. S. It is nature's remedy, composed entirely of vegetable ingredients. S. S. S. destroys every vestige of the poison, purifies the blood and removes all danger of transmitting the awful taint to others. Nothing else will do this. Strong mineral semedies, like mercury and potash, dry up the sores and drive in the disease, but do not cure permanently.
